#### CYBERSECURITY: THE LEGAL PUZZLE

**Description:** Attacks on computer systems, by hackers or foreign powers, threaten not only the confidentiality of data and business secrets but also the potential integrity of the data. This threat has the ability to jeopardize the operation of our financial, electric and other critical infrastructure. In addition, a critical concern for our protection is how does the federal government protect its own computer networks, those of its contractors, and assure the computer systems of infrastructure owners? What are the largest risks and what is the private sector doing to protect its supply chain? What can and should lawyers do? This is a free CLE program.

**Moderator:** **Harvey Rishikof**, Chair, ABA Standing Committee on Law and National Security

**Panelists:**

- **Shari Gribbin**, Assistant General Counsel, Compliance, Exelon Business Services Company
- **Paul Rosenzweig**, Founder, Red Branch Consulting, PLLC, Washington, DC
- **Tim Roxey**, Chief Cyber Security Officer, North American Electric Reliability Corporation
- **Suzanne Spaulding**, Deputy Under Secretary, National Protection and Programs Directorate, Department of Homeland Security, Washington, DC

**Co-sponsors:** ABA Special Committee on Disaster Response and Preparedness, ABA Section of Individual Rights and Responsibilities, ABA Division of Public Services, ABA Section of Administrative Law and Regulatory Practice, ABA General Practice, Solo and Small Firm Division, and ABA Law Student Division

### SATURDAY, AUGUST 4, 2012
